Joist supplier

Please provide a dimensioned sketch of the damage using the box below if needed use additional sheet:

Provide the following additional information:

- Clear photographs of all damage locations.
- A marked up floor layout highlighting which joists are damaged.
- Indicate the dimensions and position of all damage; please ensure that dimensions are taken from easily identifiable reference points on the finnframe drawing supplied.
- A brief description of how the damage was caused.

FAILURE TO PROVIDE ALL INFORMATION WILL CAUSE DELAYS

Please note that Metsä Wood Finnframe elements are engineered timber products, and must be treated accordingly. Damage to key components, while affecting only a small percentage of the cross section, may be sufficient to render the product unsuitable for the purpose it was designed for.
